## X-Men (1992 video game)

B

B

X-Men (エックス・メン) is a side-scrolling beat 'em up game produced and released by Konami for arcades in 1992, based on the Marvel Comics superhero team of the same name. The character designs of the characters in the game are based on the 1989 cartoon X-Men: Pryde of the X-Men. In the game, up to six players control the X-Men to defeat their archenemy Magneto. The six-player version of the game utilizes two screens housed in a deluxe cabinet. It was one of the top five highest-grossing dedicated arcade games of 1992 in the United States, while the Amusement & Music Operators Association (AMOA) nominated it for the "most innovative new technology" award.

C

C

An arcade exclusive for many years, a home version of the game developed by Backbone Entertainment was released by Konami digitally on the PlayStation 3 and Xbox 360 in 2010, followed by mobile versions for iOS and Android devices.

This version is no longer available for purchase as of 2013.
